4. ACTIVITIES IN THE FIRST THREE MONTHS OF 2023

4.1. RENTAL ACTIVITIES

Home Invest Belgium saw the residential rental market continue to accelerate in the first three months of 2023 with a strong demand for quality homes. This resulted in a high occupancy rate. The average occupancy rate¹³ of the investment properties available for lease increased to 98.5% in the first three months of 2023 (compared to 98.2% in the first three months of 2022).

4.2. SALES

In the first three months of 2023, Home Invest Belgium realised a limited number of sales for a net sale price totalling € 0.16 million. On these sales, a net capital gain of € 0.03 million was realised compared to the last fair value and a distributable capital gain of € 0.06 million compared to the acquisition value (plus capitalised investments).

The realized capital gains compared to the acquisition value (plus capitalized investments) contribute positively to the company's distributable result, which forms the basis for the payment of the dividend.

¹³ The average occupancy rate calculated as the average percentage over a certain period of the contractual rents of the rented spaces, in relation to the sum of the contractual rents of the rented spaces and the estimated rental value of the vacant spaces. The occupancy rate is calculated excluding (i) buildings being renovated (ii) building being commercialised for the first time and (iii) buildings being sold.

5. DISTRIBUTION TO THE SHAREHOLDERS

On 2 May 2023, the General Meeting and the Extraordinary General Meeting approved the total distribution to shareholders of € 1.10 per share, an increase for the 23rd consecutive year.

The distribution to shareholders will consist of the combination of:

– a gross dividend of € 1.00 per share. An interim dividend of € 0.85 gross per share was already paid on 9 December 2022. The final dividend will be € 0.15 gross per share.

– a reduction of shareholders' equity by € 0.10 per share. This distribution will in turn consist of a part reduction of capital and a part distribution of reserves (in accordance with Article 18, paragraph 7 of the Income Tax Code.)

The Board of Directors anticipates a dividend policy based on an average annual increase in dividends equal to or higher than the long term inflation. This is based on:

- the constant indexed rent flow from existing investment properties;
- the control of the operational costs of the company;
- the company's hedging policy, which provides good visibility on interest charges and makes them assessable in the medium term;
- The existing pipeline of project developments;

The company also emphasises the significant reserves it has built up over the years as a safety buffer for the future.

6. OUTLOOK

During the first three months of 2023, the operational results of Home Invest Belgium continued to evolve positively.

The residential rental market continues to grow steadily in those cities where Home Invest Belgium is active, mostly thanks to:

- a long-term urbanization trend, marked by demographic growth in big cities, including both young and older people, leading to increased demand for housing;
- an increasing number of tenants in big cities, due to factors including an increasing need for flexibility and a change in attitudes towards private property and concepts of urban sharing.

Home Invest Belgium owns a sustainable portfolio given its young age. More than 50% of the investment properties available for rent are younger than 10 years. Given the quality and the location of the properties in predominantly large urban areas, Home Invest Belgium is well positioned to take on a leading role in the favourable trends of the residential market.

Against this background, the board of directors confirms its confidence in the long-term prospects of the company.

For 2023 Home Invest Belgium expects an increase of the EPRA earning per share to € 1.10 (compared to € 1.08 in 2022).

7. APM – ALTERNATIVE PERFORMANCE MEASURES

Home Invest Belgium has used Alternative Performance Measures (APM) within the meaning of the Guidelines issued by the European Securities and Markets Authority (ESMA) on 5 October 2015 in its financial communication for many years. A number of these APMs are recommended by the European Public Real Estate Association, EPRA, while others were established by the sector or by Home Invest Belgium to provide the reader with a better understanding of the company's results and performances.

Performance indicators that are defined by IFRS or by law, and indicators that are not based on items in the income statement or the balance sheet, are not considered to be APMs.

- EPRA NDV: represents the NAV of the company in a scenario when all assets are being old, and this scenario results in the value of any deferred taxes, debts and financial instruments being realised.
