

## **Agfa showcases the Anapurna Ciervo at The Print Show 2025**

The Anapurna Ciervo H3200 hybrid press will land in the UK this September as Agfa prepares to attend The Print Show 2025.

Agfa, a global leader in [inkjet printing solutions](#), will demonstrate its powerful inkjet printing solutions designed to take print performance to the next level at this year's event, held from 23-25 September at the NEC Birmingham.

The company's exhibit at stand P200 will host the agile Anapurna Ciervo H3200, designed for speed and performance on both rigid and flexible media. The hybrid printer offers outstanding print quality, productivity and versatility, and delivers fast, high-quality output, bringing exceptional performance in a more compact format to the renowned Anapurna Ciervo family.

Agfa will also demonstrate the Anapurna H1650i LED printer at the show, and the team will be on hand to meet attendees and share their insights and expertise.

Paul Fitch, Head of Sales, UK, Ireland and Nordics at Agfa, said: "We're celebrating the 20<sup>th</sup> anniversary of the Anapurna range, this expo presents the perfect opportunity for us to showcase the versatility and performance that our Anapurna machines are renowned for in the thriving UK print market. We're greatly looking forward to attending and meeting customers old and new to discover how we can support their evolving print needs."
