Libya: TotalEnergies Signs the Extension of the Waha Concessions until 2050

Paris/Tripoli, 26 January 2026 – On January 24th, during the Libya Energy & Economy Summit in Tripoli, Patrick Pouyanné, Chairman and Chief Executive Officer of TotalEnergies signed an agreement extending the Waha Concessions up to December 31, 2050, in the presence of Abdul Hamid Dbeiba, Prime Minister of the Government of National Unity.

This agreement sets new fiscal terms allowing to increase the production of these concessions that are currently producing around 370,000 barrels of oil equivalent per day (boe/d). Therefore, it paves the way for a new phase of investments, including the development of the North Gialo field, which is expected to add 100,000 boe/d of production.

“As we celebrate 70 years of presence in Libya, we are pleased to sign this agreement, and I would like to thank the Libyan authorities for their continued support, in particular Dr. Khalifa Rajab Abdulsadek, Minister of Oil and Gas of Libya and Masoud Suleman, Chairman of the National Oil Corporation (NOC), Present in the country since 1956, TotalEnergies reaffirms its long-standing commitment to working alongside its partners to increase Waha’s production, starting with the development of the North Gialo field. Extending the Waha concession, with its low cost and low emission giant resources offering many opportunities to grow production, fits perfectly with our strategy” said **Patrick Pouyanné, Chairman and Chief Executive Officer of TotalEnergies.**
