CEO Brigitte de Vet-Veithen commented, *“In a quarter where elevated geopolitical uncertainty and unfavorable foreign currency exchange movements weighed on our revenue growth, we improved operational profitability across all business segments through operational focus and continued cost control. We closed the quarter with positive operating and free cash flow and a further improved net cash position, reinforcing the strength of our balance sheet and providing us with the flexibility to continue investing in innovation and growth. Following the sale of our Rapidfit business at the end of March of this year, we have now also reached an agreement to transfer our eyewear activities to the business’s management team. We believe these decisive portfolio actions will allow Materialise to further concentrate capital and resources on its core focus areas, while enabling both Rapidfit and Eyewear to operate in a setup that will best support their next phase of growth.”*

### **Materialise to transfer eyewear business to its management team**

Today, Materialise announces it has reached an agreement to transfer its eyewear business to the business's management team. We believe the transaction aligns with Materialise's strategy to sharpen its portfolio and to further concentrate capital and resources on its core focus areas, while enabling both Rapidfit and Eyewear to operate in a setup that will best support their next phase of growth. Materialise will retain a minority stake in the newly formed eyewear company, reflecting its continued confidence in the business. All employees currently supporting the eyewear business will transition to the new company formed in connection with the transfer. The financial terms of the transaction were not publicly disclosed, and we expect to recognize impairment charges in the second quarter of 2026 related to the transaction.

### **2026 Guidance**

Mrs. de Vet-Veithen concluded, "As previously communicated in our guidance issued in February, we expect macro-economic and geopolitical uncertainty to persist throughout fiscal year 2026. Nevertheless, we continue to have confidence in the strength and resilience of our underlying business fundamentals. The strategic repositioning initiatives and targeted investments across our three business segments are expected to progressively support operational performance and profitable growth. Notwithstanding the anticipated impact of the divestments of Rapidfit and Eyewear, we reaffirm our full-year revenue guidance for fiscal year 2026 in the range of 273,000 to 283,000 kEUR. In addition, we are maintaining our Adjusted EBIT guidance for fiscal year 2026 of 10,000 to 12,000 kEUR, reflecting our continued focus on execution discipline, cost management, and capital allocation."

### **Non-IFRS Measures**

Materialise uses EBIT, EBITDA, Adjusted EBIT and Adjusted EBITDA as supplemental financial measures of its financial performance, including for purposes of monitoring compliance with financial covenants, supporting discussions with financing institutions, and meeting reporting requirements to our banks. EBIT is calculated as net profit plus income taxes, financial expenses (less financial income) and shares of profit or loss in a joint venture. EBITDA is calculated as net profit plus income taxes, financial expenses (less financial income), shares of profit or loss in a joint venture and depreciation and amortization. Adjusted EBIT and Adjusted EBITDA are determined by adding to EBIT and EBITDA, respectively (i) share-based compensation expenses, (ii) acquisition expenses related to business combinations or divestiture-related expenses, (iii) impairments and revaluation of fair value due to business combinations and (iv) costs incurred in relation to corporate initiatives, restructurings or reorganizations that are of a non-recurring nature. Management believes these non-IFRS measures to be important measures as they exclude the effects of items which primarily reflect the impact of financing decisions and, in the case of EBITDA and Adjusted EBITDA, long term investment, rather than the performance of the company's day-to-day operations. The company also uses segment Adjusted EBITDA and segment Adjusted EBITDA margin to evaluate the performance of its three business segments. As compared to net profit, these measures are limited in that they do not reflect the cash requirements necessary to service interest or principal payments on the company's indebtedness and, in the case of EBITDA and Adjusted EBITDA, these measures are further limited in that they do not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in the company's business, or the changes associated with impairments. Management evaluates such items through other financial measures such as financial expenses, capital expenditures and cash flow provided by operating activities. The

company believes that these measurements are useful to measure a company's ability to grow or as a valuation measurement. The company's calculation of EBIT, EBITDA, Adjusted EBIT and Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. EBIT, EBITDA, Adjusted EBIT and Adjusted EBITDA should not be considered as alternatives to net profit or any other performance measure derived in accordance with IFRS. The company's presentation of EBIT, EBITDA, Adjusted EBIT and Adjusted EBITDA should not be construed to imply that its future results will be unaffected by unusual or non-recurring items.
