# An exhibition of 1000 M2 to tell the role, the history and the operation mode of the Stock Exchange

## 3 monumental cylinders

## Didactic films and interactive installations

## Amazing documents and objects

Edison universal Stock Ticker / Museum of American Finance - New York

## Alcoves for the eyes of artists and ...to meet the masters of the Stock Exchange

Charles Sandison

To get through the numbers and discover a fascinating world : our economic world

To understand the investment universe in global stock markets, throughout history and today's world of big corporate business

To make the point, to tell, to explain the basics, and to put an end to the a priori and false ideas;
